

#1660 Single Watch Winder

The single watch winder boasts a handsome burl high gloss finish and features one winder motor with soft velvet covering. Has three winding modes to suit your needs, the modes are as follows:

Mode 1: When the dial is in the #1 position the winder winds for 1 minute in clockwise direction and 1 minute counter-clockwise, then stops for 10 minutes, and repeats this cycle. **The winder does not stop, but moves continuously during the change of direction.**

Mode 2: When the dial is in the #2 position the winder winds for 1 minute in clockwise direction and 1 minute counter-clockwise, then stops for 15 minutes, and repeats this cycle. **The winder does not stop, but moves continuously during the change of direction.**

Mode 3: When the dial is in the #3 position the winder winds for 1 minute in clockwise direction and 1 minute counter-clockwise, then stops for 25 minutes, and repeats this cycle. **The winder does not stop, but moves continuously during the change of direction.**

Mode 0: Off

The turning force of the mechanism can accommodate a 7.05 oz. watch.

AC Adapter (UL Approval): Input: 120V AC 60Hz 100mA
Output: 6V DC 500mA 0.3VA

WARNING:

Please do not shake the watch winder as it may affect watch winder functioning.
